

FNM ENGINE SERIES

FNM Marine Diesel Engines
We Power Your Life At Sea

We Power Your Life At Sea

Your partner in power

FNM means power; power that is predictable and reliable. Power that responds quickly to your every command. Power that delivers the cruising speed, durability and fuel efficiency you expect from a world-class diesel. The FNM diesels are clean-running and virtually free of smoke. They're quiet, too. Just right when you want to maximize your leisure time on the water. The engines are fully compliant with the European RCD emission standards.

- At FNM we do more than simply **power boats**.
- We empower boaters to **enjoy the water** like never before.
- **Stay out longer** and **spend less on fuel** is now a reality with FNM.
- Whatever you like to do on water, **FNM is your partner in power**.

More confidence

FNM gives you the confidence to enjoy your time on the water without care or worry. The confidence to know your boat delivers the ultimate in performance and dependability. Your confidence is the reason for the close cooperation between FNM and the boat builders. This shoulder-to-shoulder collaboration has the purpose of ensuring the most trouble-free installation of the propulsion system into the boat.

The ultimate solution

In a society where our customers demand the ultimate solution – more efficiency, more durability, more reliability – and where on the other hand the world and the environment demand less – less emissions, less pollution, less waste – the FNM diesels seem to be the perfect solution for all needs and expectations.

Leave Your Worries On Land

FNM Action Service

This is the gold standard of marine customer support. Easy access to service assistance, technical or parts support 365 days a year anywhere. This means that, when cruising far from your home, you can rely upon the FNM service network to be there for you. The highly trained marine workforce is dedicated to providing comprehensive, all-year engine care and service, ensuring peak performance and hassle-free operation.

FNM Series 2-Year Limited Factory Warranty

For recreational applications, our FNM engine series is covered with a 2-year Limited Factory Warranty. Plus, our Product Protection Plan can extend your coverage for up to 5 years.

FNM Marine Technical Center

It's a lot easier to enjoy yourself on the water and cruise with confidence when you can leave your worries on land. Validation starts at the ultra-modern Marine Technical and R&D Center located in Atella (Italy) adjacent to the CMD machining center. This 8,000 square meter advanced center features engine test cells and houses a team of highly skilled engineers and specialists who lead our design, new product R&D, electronics and boat integration programs.

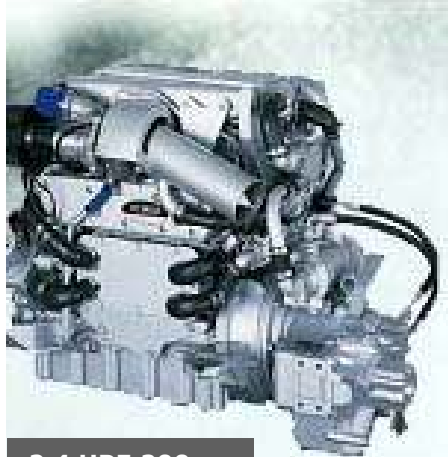

72-hour Parts Guarantee

Timing is everything when it comes to getting you back on the water. So, when part replacements are needed, we first look to our dealer's stocked shelves for immediate turnaround. In the unlikely event a servicing dealer must order the part that is keeping you off the water, we guarantee delivery to the dealer within 72 hours from our Atella, Italy distribution center. It's one more way we ensure quality time on the water.

The FNM Series Diesel Engines

2.4 HPE 200

2.4 HPE 250

- **The freedom to cruise farther:** Stay out longer and spend less on fuel is now a reality with FNM new diesels
- **Predictable and reliable:** Power that responds quickly to your every command. Power that delivers the cruising speed, durability and fuel efficiency you expect from a world-class diesel
- **For new installations or re-powers:** The FNM series engines are a viable alternative to gas powered boats
- **A remarkably compact design:** These propulsion packages generate more power, torque and acceleration than other engines in their class
- **Technical features:** A large turbocharger, after-cooler and direct injection Common Rail Multijet fuel system combine to create impressive horsepower and torque

Depending on the boat, today's high revving FNM diesels, with their outstanding power-to-weight ratio, can be real fun performer. These diesels, have been designed specially for performance craft and are well capable of outperforming equivalent-size petrol engines.

This is precisely what you get with the FNM series diesel engines. It's your call. With the new HPE series with horsepower ratings up to 250 HP, FNM delivers a new wave of marine diesel power that brilliantly advances the science of marine diesel technology.

Improvements in fuel efficiency translate into extended range and savings at the pump. These environmentally friendly engines (fully compliant with the new European emission standards) offer comfortable cruising and benefit from low noise and vibration.

Outstandingly compact designs and power to weight ratios, means that the FNM Diesel series engines are now a reality for a far wider range of pleasure boats and commercial applications.

The FNM Diesel Advantages

- Pinned-to-the-seat Power
- The Quietest, Smoothest Performance For Any Diesel Ever Built
- Ultimate Control, Response And Durability
- Compact Lightweight Designs For Improved Top Speeds And Performance
- State-of-the-art Multijet Electronic Fuel Injection For Superior Fuel Efficiency, Improved Performance, Reduced Exhaust Emissions And Clean Running
- With horsepower ratings up to 250 HP, FNM can supply all the fund and excitement you can handle
- Whatever you need from your propulsion system, you can rely on FNM Series Diesel Engines

2.4 HPE 250

Unsurpassed performance

Cutting-edge technology, best-in-class performance, unsurpassed reliability, fuel economy and quiet running are hallmarks of the FNM Series Diesel Engines. These are the reasons why FNM has become the power of choice for serious boaters everywhere.

The FNM Series Diesel Engines 1.9 Liter

Features:

- The 1.9 series is fitted with industry-leading gearboxes and sterndrives. Coupled to FNM marine performance technology, this is the power combination to get you there and back in complete safety, comfort and style.
- Glow plugs are standard on inboards and sterndrives for improved starting in cold conditions
- Turn-key starting that offers consistently easy, fast ignition

Ultimate Degree Of Reliability

Designed to effectively fit in small boats 15 to 29 feet in length, this compact series of diesel engines allows you to experience the ultimate degree of reliability. This is the ultimate embodiment of our total propulsion system concept.

Total Performance Concept

If you demand total performance from your propulsion system, you've found it: the FNM 1.9 L series, the ultimate expression of a diesel propulsion system. This is high-torque diesel power with magnificently smooth and quiet running.

FNM diesel engines' cutting-edge technology delivers best-in-class performance and reliability

Features:

- **Direct injection:** The 2.4 L FNM engines offer the superior fuel efficiency and performance of direct injection. This contributes to reduced exhaust emissions and clean running.
- **Alternator:** Produces 105 amps of electricity. This higher amperage assures power to run boat's electronics and charge its battery, even at low RPM.
- **RCD emissions compliant**

Responsive acceleration

For better all-around performance, choose one of our engines with electronic Multijet fuel injection. It provides quick starts, smooth idling, low emissions, responsive acceleration and increased reliability.

Low maintenance costs

Our engines lower maintenance costs with features that are easy to access. All engines feature a panel instrument with VDO gauges that monitor oil pressure in addition to engine, water and exhaust temperatures.
